Digital Literacy Computer Classes

New "Digital Literacy: Ready, Set, Go!" computer classes can help you get comfortable with your computer so you can use it with confidence. They also help you avoid scams, search safely, and keep learning online.

Sessions are offered in both English and Spanish.

Due to Covid-19, classes are currently only available remotely by internet connection.

Cost: FREE

(Thanks to funding from Comcast!)

Digital Literacy Sessions:

Introduction to Basics of Computer

Learn how to turn on and login to your computer. We'll teach you how to create strong passwords, save passwords safely, and how to navigate your desktop and browser.

Searching and Learning

Use the internet to answer all your questions, and learn how to search like a pro. The DiverselT staff will show you search tricks and tips so you can get the best information from the world wide web.

Online Safety

Find out how to protect yourself while using the internet including how to spot scams, phishing, and fraud. This will help you keep your computer virus-free and keep your personal information safe.

Learning Forever

Continue learning and growing as a computer user. What else do you want to do or accomplish with your computer? We'll help you find ways to promote your own learning, so your computer will be a tool you can use with confidence.
